Ficha viaje

Experience The Azores - Whale and Dolphin Watching

The Azores are currently one of the world's largest whale sanctuaries. Among resident and migrant species, common or rare, more than 20 different types of cetaceans can be spotted in the Azores. It is an impressive figure and it corresponds to a third of the total number of existing species. This is an ecosystem with unique characteristics. With majestic whales and friendly dolphins, the blue Atlantic Ocean becomes even more magic around these nine islands. And it brings to the present, when preservation is the keyword, an old cry: "How she blows!"

Resumen del viaje

Whale and Dolphin Watching

We have the chance to watch 24 cetaceans' species during the year in the Azores.

The activity takes 3 hours and is done by a professional team of skippers, lookouts and biologists on rigid inflatable boats.
