Itinerario ampliado

DAY 1 ROME Welcome! After meeting at a convenient location in Rome (please refer to arrival details for more information on where to meet), we proceed by train to Chiusi and then by private transfer to our agriturismo just outside the charming hill town of Chianciano Terme.

On arrival after settling in, our host Stefano, will welcome us with the first of our many wonderful meals comprised of local, often organic, produce.

DAY 2 CHIANCIANO TERME Enjoy a local Italian breakfast before a cycle into the village of Chianciano Terme. The route takes us through gently undulating hills and through country paths en route to the village. Free afternoon to relax around the pool or explore the grounds of the agriturismo. This evening, watch a cooking demonstration of some local dishes, using ingredients from the area, and enjoy them for dinner.

In the early evening, our host Stefano will take us through a cooking demonstration of some local specialties, which may include gnocchi with ricotta cheese or savory faro - the local regional grain) which you will then enjoy for your evening dinner.

DAY 3 CHIANCIANO TERME/PIENZA Today we cycle up to the hill town of Pienza. Considered to be the epitome of a Renaissance town, and rebuilt in this style, the cycle up to this town is well worth the reward. We cycle up through the winding paths that cover many of the Tuscan hillsides and through hill-lined streets before we arrive. There is time to relax and wander around the town before we return to Chianciano Terme.

Approx. distance cycled - 22 km.

DAY 4 CHIANCIANO TERME Today is a free day. Options include visiting the city of Siena, visiting Florence, borrowing a bicycle for a local ride or enjoy a relaxing traditional spa treatment in one of the spa resort hotels in Chianciano Terme.

DAY 5 CHIANCIANO TERME Today we are in for a treat as our host Stefano takes us through his orchards, fields and cellar showing us local produce from the ground up. In the morning, Stefano will explain why he only uses traditional organic methods of cultivation on his property. Depending on the season you may see olive oil and wine in production, the vegetable patch, meat curing, and various fruit trees in the orchard.

This afternoon, we head into Chianciano Terme for a very local wine tasting. This takes place literally in one of the village family's cellars. Their produce is very well regarded in the local region and a great chance to get to learn about the local grape varieties. It is a 10-15 minute stumble back home after the tasting.

This evening, enjoy another of Stefano's delicious dinners.

DAY 6 CHIANCIANO TERME Today we take a trip to the quintessential Tuscan hill town of Montalcino.

En route, we will stop at the Abbey of Sant'Antimo. Here we listen to the local monks chanting the offices of the church chanting the traditional Gregorian chant as they have been doing for centuries-

this is a rare privilege, as this is a dying rite in Italy.
